To whom it may concern:

This is to inform you that I have been practicing Criminal Defense work for the past 21 yrs. in Orange County. In the past year I have had the privilege and pleasure of working with one of the most efficient and professional investigators in all my years as a defense attorney. Maki Kudaka's ability to obtain statements from reluctant witnesses/victims/subjects with a non-threatening approach, her through case review and preparation, her detailed work product in a form of "The Discovery Book" is amazing.

As recently as, 4 months ago in a case of People vs. [REDACTED], where my client, [REDACTED] [REDACTED] was charged with an aggravated assault with a knife , 245(a)(1) PC, which is a felony strike, with a 3 yrs. exposure, Miss Kudaka assisted me with the investigation and preparation of The Discovery/Trial Book. Thanks to her hard work, we managed to prove our client was innocent of all the charges. I would attribute 80% of the success to her work product and only 20% to my ability to articulate, present and deliver all her hard work during the court hearing.

She will be the driving force in any case that she is assigned to, and as such, it will my pleasure to endorse her services in the field of investigation. Feel free to contact my office with further questions.
